## ABOUT EXHIBITION

The print & packaging market has witnessed an astounding growth in India during the last 15 years. Particularly, this growth is significant in the Southern Region. This growth covers the total spectrum such as commercial and promotional printing, packaging, printed advertising, newspapers, periodicals, stationery and others. The projected growth automatically means future investments in capital goods, connected to the sector. Printers in Southern India, including the South-East Asian countries are eagerly looking forward to visualize and adopt the technology common in the international sector and upgrade their production flow to achieve the global standard. Bangalore being the Electronic capital with a favourable climatic condition and pro-active State Government is the ideal venue for an Exhibition of this nature.

The advantages of the inclusion of Paper has its own advantage. Paper is the original wireless communicator and biodegradable with waste fully recoverable and ready for recycling into a New Paper which connects us in so many ways to the important things in life.

With this objective, **PRINTPACK & PAPERTECH EXPO-2019** is planned at the picturesque **PALACE GROUNDS** from to

The Exhibition will witness participation from the length and breadth of the Country from the Printing, Packaging and the Paper Industry with separate pavilions from China and Taiwan. Efforts are also being made to attract participation from several European Countries.
